

Fort Knox

mod: 2525
design by Ewald Winkelbauer

The face of the Fort Knox cuckoo clock designed by Ewald Winkelbauer is skilfully crafted in gold, silver or copper leaf by expert hands. This very special, precious, elegant, age-old finish combines with the square-cornered, minimalist design parallelepiped frame to give a modern look that suits any environment. Can be used wall mounted or free standing. Made from wood coated with non-toxic paint. The high-quality, German-designed cuckoo movement is powered by two batteries, a light sensor prevents the cuckoo from calling when it is dark. A switch allows the sound to be regulated or switched off completely.
