

Flyer

mod: 2230
design by Alex Sacchetti

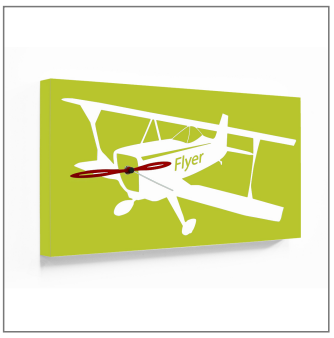

The wall clocks Flyer line is the brainchild of Alex Sacchetti to create a product that could be a real painting to hang in your home or office. Inspired by the flight, various aircraft that thrill, intrigue and fascinate Flyer has a rectangular shape made of wood available in various shadesÂ with three different models of planes, instead of propellers, have the clock hands that give a realistic movement. Battery quartz movement.
