

Hustle

mod: 2200

design by Davide Tonizzo

New York Sound is a collection of clocks designed by David Tonizzo based on three important musical movements that have traveled the world and characterized film and culture of the American metropolis. Hustle celebrates Disco music or rather one of the dances popular in the late 70s which takes its name. It's the famous pose of John Travolta in Saturday Night Fever movie to give it the shape. A movement, an image that has exceeded fashions and borders. Made in steel. Battery quartz movement.
