

Biancaneve

mod: 2351
design by Nice&Nesty

Biancaneve clock is the result of the artistry of Caecilie e Virginia Hechtel, sisters of German origin, brought up in Milan and from an early age, immersed in the world of fashion and decorative clocks. Their brand, Hans&Greta, expresses their love for creating items connected to the world of fairy tales. The outcome of their collaboration with Progetti and the â€˜for kidsâ€™ range, has been the creation of three clocks, Alice, Snow White and Little Red Riding Hood. The clocks convey a highly emotional image of the underlying theme of fairy tales but with a modern interpretation. Their artwork recalls a mixture of classic and traditional fairy tales with a touch of â€˜mangaâ€™ style of drawing with large eyes, simple shapes, important symbols drawn out of proportion and vivid colours. In order to make the characters seem alive, the skirts move like a pendulum to the passing time. Alice, Snow White and Little Red Riding Hood are ideal for childrenâ€™s bedrooms and for this purpose a small â€˜playfulâ€™ feature has been added, each clock has magnetic hands that can be playfully adjusted to any position as you please.
