

q01

mod: 1696
design by Alberto Sala

The classic cuckoo clock has been restyled in a contemporary fashion with well-defined features and distinct shapes such as the unique asymmetric roof, giving life to a whole new cuckoo clock of minimalist design. The only decoration is the writing 'qoo ckooo!!' placed between the bird and the hands of the clock which recalls the sound the feathered bird makes. Cuckoo clock made in wood. Battery quartz movement. The Cuckoo strike is switched off automatically during the night controlled by a light sensor.
