

Decor

mod: 2410

design by Gianluca Minichillo

A circle represents perfection, completeness, union. It is the classical symbol of something that doesn't have a beginning or an end. One continuous line whose ends unite losing themselves in one another. Decor is composed of 10 rings that blend together in a geometrical dance, exalting the elegance of its shape. The circular drip tray completes the simple design. This item adapts to any setting whether modern or traditional. Designed by Gianluca Minichillo, it is made of steel and is painted with epoxy-powder which guarantees durability.
