Jazz Time

mod: 2505
design by Domenico Cimino

The highly original shape of this wall cuckoo clock designed by Domenico Cimino was inspired by the wave-like motion of a dance. Made from curved wood coated with non-toxic paint by skilled artisan's hands, this extremely refined item adapts admirably to any environment. The high-quality, German-designed cuckoo movement is powered by two batteries, a light sensor prevents the cuckoo from calling when it is dark. A switch allows the sound to be regulated or switched off completely.
